

Portland 2 PowerLED

The Portland II PowerLED with its minimal housing depth and secure screw-in mounting is ideal for installing into fiberglass overheads - e.g. hardtops, tower platforms, etc. Now with double the light output and wider viewing angle, fewer fixtures can be used. The Portland II PowerLED features full dimming ability and is available in single or bi-color versions.

An excellent choice for:

- Exterior hardtops
- Tower platforms
- Salon and staterooms
- Heads and galleys

Portland 2 PowerLED

Features

- E-coat aluminum construction for optimal thermal management & corrosion resistance
- Integrated drive electronics
- Low profile design
- PWM dimming interface

Benefits

- Substantial power savings
- No radiated heat
- Maintenance-free; no more bulb changes

Portland 2 PowerLED

Advanced LED Solutions

Imtra is at the forefront in the development of LED products for today's marine market.

We are proud to offer a family of first-in-class high flux LED lights that combine proprietary drive electronics with advanced optics and efficient thermal management techniques. Imtra PowerLEDs let builders and boat owners enjoy all the advantages of the latest LED technology, backed by Imtra's expertise and support.
