

Ventura PowerLED

The Ventura PowerLED recessed spot is Imtra's latest (and most powerful) PowerLED spot. Ventura's lumen output matches or exceeds 20W halogen spots of similar size. Like all Imtra PowerLED spots & fixtures, the Ventura is 100% dimmable when used with Imtra's power-saving PWM momentary digital dimmer. Like our other IML PowerLED spots, Ventura's smooth aperture appearance without "hot spots" sets it apart from other LED spots on the market. Three stylish trim bezels offered with a choice of warm or warm/red bi-color output. Ventura conveniently & firmly installs with self adjusting trap springs.

An excellent choice for:

- Main salon
- Mid size or large staterooms
- Helm area
- Galley

Ventura PowerLED

Ventura HS PowerLED

Ventura RS PowerLED

Features

- Ultra flat stainless steel bezel in round or square designs
- Convenient self-adjusting mounting springs
- Integrated drive electronics
- PWM dimming interface

Benefits

- Substantial power savings
- High lumen output (equivalent to 25W halogen)
- Cooler cabin temperatures
- Maintenance-free; no more bulb changes

Ventura PowerLED

Advanced LED Solutions

Imtra is at the forefront in the development of LED products for today's marine market.

We are proud to offer a family of first-in-class high flux LED lights that combine proprietary drive electronics with advanced optics and efficient thermal management techniques.

Imtra PowerLEDs let builders and boat owners enjoy all the advantages of the latest LED technology, backed by Imtra's expertise and support.
