[www.imtra.com](http://www.imtra.com)

## About Imtra

Imtra Corporation is the top systems supplier for the Oil & Gas and Wind & Solar industries. We search worldwide to find innovative solutions and products to meet today's toughest challenges. We also make sure that our products are in stock and ready to deliver from our New Bedford, MA headquarters.

Product selection is only part of our story. Imtra's strength begins with its people, a dedicated team who truly understand our customers' needs. With a knowledgeable in-house service staff, solid engineering capabilities, and a nationwide support network of professionals, Imtra provides an unsurpassed level of service and expertise.

Roca

## **Our focus on energy solutions**

Imtra's product offering suits the needs of the most demanding conditions that the market sees. Whether installing a quality wiper system for a driller's cab or supplying a modular Driller's chair solution, Imtra has the expertise and equipment to assemble a complete system solution for its many product offerings. We work closely with all facets of the industry from the controls engineers to the manufacturers and operators, ensuring all the product and support is there to deliver the most reliable equipment solutions specific to their needs. We pride ourselves in delivering great products and support, making Imtra an obvious choice for your next project.

## WIPER SYSTEMS

Installed Decca Straight Line Wiper System

Exalto Type 2 System

For industrial and land-based customers, Imtra® provides durable wiper systems suitable for large windows exposed to extreme environments in a wide range of climates. Our reliable equipment is easy to maintain and service.

### Decca Wiper Systems

Built in Norway to survive the rigors of the North Sea, Decca Straight Line wiper systems have been installed in some of the harshest environments and the most demanding applications.

- High quality materials and technical features provide unbeatable construction applications
- Easy to install and operate

### Exalto Wiper Systems

Exalto offers a premium all-weather wiper system. Built for the harshest environments and made of high quality materials, Exalto wiper systems feature 316 stainless steel components to provide many years of reliable service. With a full range of motor, arm and blade sizes, Exalto can deliver a solution customized for each application.

- Pantograph and Pendulum wiper systems
- Wipers adjust easily and securely to optimum length
- Standard and heavy duty blades in a variety of lengths

### Roca Wiper Systems

With over 30 years of experience, Roca® is one of the world's leading suppliers of wiper systems. Roca's mission is to design, develop and manufacture quality systems worldwide.

- Expansive selection suitable for all applications

Imtra would like to thank the following companies for their partnership on the projects represented in these pages and for the use of photos throughout this brochure:

Decca  
Serva Group  
Roca

### Serva Group

*When Serva Group needed a better wiper solution for their innovative Coiled Tubing Units and Command Centers they reached out to Imtra. The impressive large glass that allows for uninhibited line of sight from ground level up to the top of the injector, had a unique curvature that made it crucial to clear the glass from top to bottom. Our solution involved two straight line wipers with custom blade assemblies that wrapped over the bend in the glass. The Decca units also feature independent variable speed control of the two wipers with an added heater function for the harsh conditions that these units operate in.*

## SEATING AND CONSOLES

### Seating

For decades, NorSap™ has been the industry standard for seating and deck rail solutions. Built in Norway for some of the most demanding markets, they take reliability and ergonomics to the highest level. Their expansive ranges of seating solutions have made them the product of choice in many demanding industries.

- Ergonomic solution with many seat adjustment options
- Ability to integrate controls into standard armrest solutions
- Large catalog of custom solutions

### Consoles

NorSap's extensive experience in manufacturing and design has allowed them to develop custom console solutions.

NorSap 3500

## SOLAR BLINDS

### Sola-Cure

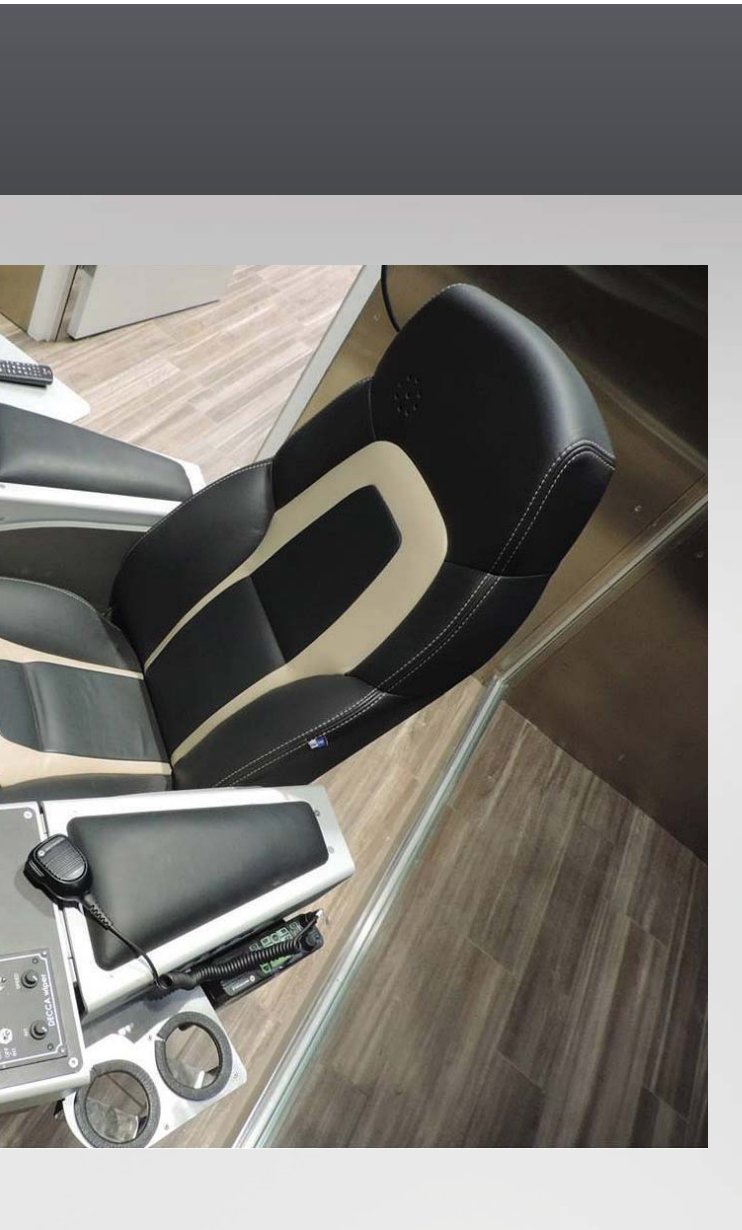

Sola-Cure is Imtra's go-to supplier of UV protection roller solar shades. With their high anti-glare sunscreen, Sola-Cure blinds help to improve safety and enhance working conditions.

- Suitable for all window sizes and shapes
- Protects fabrics and furnishings from fading
- Creates a cooler environment

### FEATURED PROJECT

## MAXIMUM

### Wind Alarm

This feature-rich wind speed alarm and controller is ideal for managing wind sensitive equipment. It provides operators with a wealth of features and an unprecedented level of control. It is highly accurate, rugged and an ideal solution for managing commercial equipment by collecting and monitoring conditions and providing timely alerts to keep you aware of wind speeds that could cause safety concerns for people and equipment in nearly any application.

MAC3 Wind Alarm

## LILAAS

### Controls & Joysticks

Award-winning precision mechanics from Lilaas® range from simple, one-axis control levers to hand wheels, rudder controls, azimuthing control units and multi-axis joysticks.

## LED LIGHTING

### Imtra LED Lighting

Imtra®, a leading manufacturer of low voltage LED marine and vehicle lighting offers a wide range of lighting for nearly every application. Imtra LED fixtures are designed and manufactured in the U.S.A. and engineered for corrosion resistance, ease of installation, and practical functionality. Imtra's LED fixtures combine these attributes with proven (best practices) LED electrical design; efficient optical design, thermal management, and high quality maximized electrical components.

Imtra has long been at the forefront of LED technology. Imtra-designed lights are built tough and made to withstand shock, vibration and shifting environments. Along with our own manufactured goods we source some of the best LED lighting solutions for specialty lighting applications and have the industry knowledge and experience to provide the best comprehensive LED lighting solutions for the oil and gas industries.

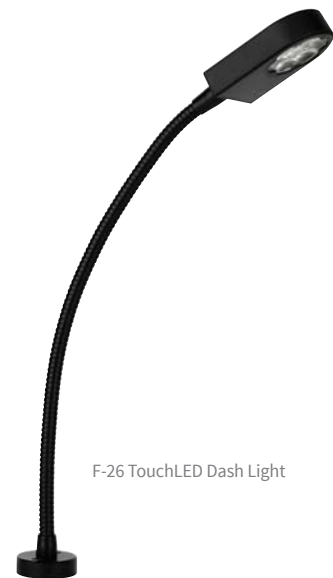

### Frensch Lighting

Frensch® Lighting is world-renowned for products that combine German ingenuity and design with high quality materials.

4' High Output Utility Light

F-26 TouchLED Dash Light

Imtra offers a range of specialty lighting, LED exterior flood lights, LED replacement bulbs, and more.
