

CHAINSTOPPERS

Put the finishing touches on your system with the right anchoring accessories.

Imtra has collected a variety of high quality products to complete your anchoring system. These items were selected specifically to work with Imtra's Lofrans and Muir windlass lines, yet will work with most other anchoring systems equally well.

From chainstoppers to stainless steel anchor swivels, our full range of anchoring accessories will add to your boating safety, convenience and enjoyment.

■ Stainless Steel Chainstopper

Our stainless steel chainstopper accommodates chain from $\frac{1}{4}$ "- $\frac{3}{8}$ " and features a removal pawl (with lanyard) and safely works with loads of 5,000 lbs. The chainstopper mounts with two $\frac{3}{8}$ " fasteners (not included) and has a footprint that is $2\frac{3}{4}$ "- $3\frac{1}{8}$ ".

■ Chrome-Bronze Chainstoppers

Imtra offers the Muir modular chainstopper system for larger applications. These stoppers are available in their base form but can be upgraded to include a Devil's Claw assembly with the optional conversion kits. Available in two sizes: $\frac{5}{16}$ "- $\frac{3}{8}$ " or $\frac{7}{16}$ "- $\frac{1}{2}$ ". Larger sizes are available by special order. These stoppers can also be ordered in stainless steel on special request.

Anchor Swivels

Our anchor swivels are constructed of rugged 18-8 stainless steel that is buffed to a polished finish. Their streamlined design ensures free running through bow rollers and chocks. The swivel also assists in the alignment of the anchor shaft into the bow roller. Use the chart below to find the size swivel that is best for your application.

Item No.	Description	Working Load	Chain Size	Spread Between Eyes:		Pin Diameter:	
				Chain End	Anchor End	Chain End	Anchor End
SPA-801	Swivel, Small	1550 lbs.	$\frac{1}{4}$ - $\frac{5}{16}$ "	0.39"	0.62"	0.27"	0.39"
SPA-802	Swivel, Medium	4500 lbs.	$\frac{5}{16}$ - $\frac{7}{16}$ "	0.55"	0.82"	0.47"	0.51"
SPA-803	Swivel, Large	5880 lbs.	$\frac{1}{2}$ "	0.62"	1.10"	0.55"	0.59"

Snubbers & Chain Hooks

An anchor snubber is an important add-on when using an all chain rode. After setting the anchor, slip the hook onto a link of chain and tie off the 3-strand nylon tail. You can then let out additional chain with the windlass, which transfers the anchor load to the snubber from the windlass. This makes for an easier and quieter ride as the nylon tail will stretch slightly as the load of the boat on the anchor changes. We use high-strength ACCO chain hooks in our snubbers and offer these as separate items so you can build a snubber to fit your specifications.

SPA-SNUB1	Anchor Snubber for $\frac{1}{4}$ " Chain with 20' of $\frac{1}{2}$ " 3-Strand Nylon Line
SPA-SNUB2	Anchor Snubber for $\frac{5}{16}$ " Chain with 25' of $\frac{9}{16}$ " 3-Strand Nylon Line
SPA-SNUB3	Anchor Snubber for $\frac{3}{8}$ " Chain with 30' of $\frac{5}{8}$ " 3-Strand Nylon Line
SPA-HK1	Chain Hook Only for $\frac{1}{4}$ " Chain
SPA-HK2	Chain Hook Only for $\frac{5}{16}$ " Chain
SPA-HK3	Chain Hook Only for $\frac{3}{8}$ " Chain

Chain Markers

Color-coded chain markers make it easy to keep track of chain deployment. Available in five colors: red, blue, green, yellow and white. Supplied in bags of 14 ($\frac{1}{4}$ "), 10 ($\frac{5}{16}$ "), or 8 ($\frac{3}{8}$ " and $\frac{1}{2}$ ").
