

Exalto Type 2 Wiper Systems

Our wiper systems are engineered for reliability and performance - even in the worst conditions.

255BS WIPER MOTOR

- 12VDC or 24VDC
- Choice of two bulkhead thicknesses
- 55Nm torque
- Drives arms to 39.4", blades to 47.25"
- Two Speed Settings:
 - Low (38 sweeps/min)
 - High (60 sweeps/min)
- Dynamic park (left or right)
- Amp Draw: 7A (12V) or 4A (24V)
- Recommended Fuse Size:
 - 12V: 8A Slow Blow
 - 24V: 6A Slow Blow

TYPE 2 WIPER ARMS

- Adjustable in length up to 39.4"
- Available in fixed or adjustable spring gallery versions
- 10mm box section extension arms with channel for wash tubing
- Gallery covers for clean appearance
- 316 stainless steel construction with solid brass heads
- Coated with durable low-glare black polyester epoxy
- Optional arm-mounted jet

TYPE 2 WIPER BLADES

- Stainless steel main support
- Stainless steel lower bridges (standard wiper blades)
- High-density synthetic lower bridges (heavy duty wiper blades)
- Replaceable rubber inserts
- Sizes from 9.8" - 47.25"

Exalto

Features

- Dual drive shafts for additional power
- Tapered brass heads for secure arm/motor connection
- 316 stainless steel shafts, fasteners and components
- Choice of stepless sweep angle from 40-90°
- Durable galvanized steel bracket

Benefits

- Long life in wet, corrosive environment
- Easy installation and wiring
- Wide range of arms and blades to fit most any window
- System has maximum wiper reach of up to 63"
- 3-Year warranty on motors & arms; 1-Year for blades

		37.4"	EX216127		
		39.4"	EX216128		
		47.3"	EX216130		

Please Note: The 255BS motor is replacing the 250BS wiper motor

255BS Motor

Control Options

Imtra offers a wide range of switching options for your wiper system. The choices range from simple rotary switches to full featured electronic control panels that allow for fingertip control of the operation of entire banks of wipers. Ask for more information or visit www.imtra.com to see all the wiper switching options.

Integrated Washing Systems

Complete your wiper installation with a proper window washing system. Imtra has everything that you need to customize a washing or rinse down solution for your application.

We have it all - solenoids, plumbing fittings, high quality tubing, bulkhead connects and manifolds for systems that plumb directly into the craft's pressure water system.

Or, choose a washing system that includes a dedicated fluid reservoir that allows for the use of anti-freeze or other additives for weather sensitive operation.

Request a copy of our washing system flyer to see all the options available. You can also see our offering at www.imtra.com
