READING LIGHTS

CABIN
DENMARK

CABIN BRASS

PROBABLY THE MOST BEAUTYFULL YACHT LAMP AT SEA

CABIN
DENMARK

The Danish Frigast Cabin light gives your yacht a touch of luxury and old world charm that only meticulous and full attention to detail can convey.

Cabin small is perfect as a reading light by the berth or in the cabin in smaller yachts. For 30-50 foot yachts the Cabin medium is the better choice – whilst in larger yachts the Cabin large may be preferred.

Save 80%-90% energy!

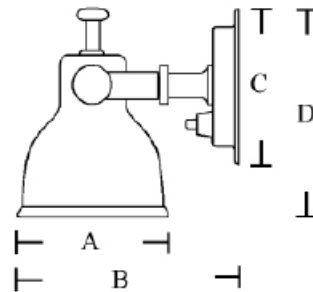

The LED lights are mounted with one warm white Power LED which gives excellent reading light.

LED lights are mounted with a multivoltage 10V-30V LED driver.

The lifetime of the LED is more than 50.000h.

The lights are also available for 12V or 24V G4 halogen bulbs.

	Small	Medium	Large
A	73mm/ 2.87in	90mm/ 3.54in	115mm/ 4.53in

DIMMING LED LIGHTS

CABIN
DENMARK

CABIN LED lights are dimmable.

CABIN LED lights designed for a specific voltage range can be dimmed.
ea. light series 5581 - 5583 - 5586 - 5589 - 55812.

A PWM LED dimmer must be connected between the power supply and the LED light(s).
A push switch, a pot meter or a DALI controle enable you to dim the light to the level you want.

POWER LINE LED

1060 SERIES

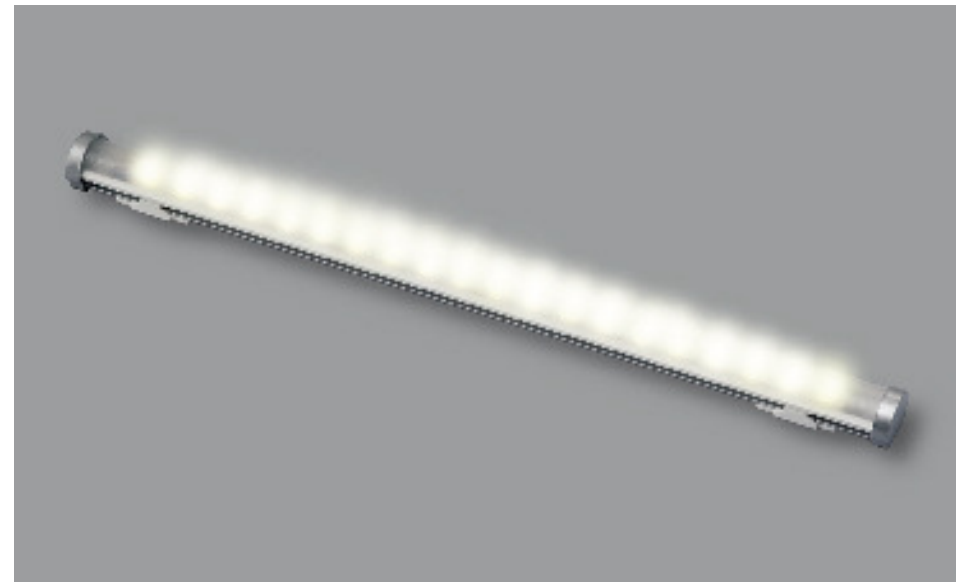

CABIN
DENMARK

This series of lights is designed for general lighting, reading light or cabinet light.
Quality light wherever you need it.

24 LEDs give the same warm white light as a 20W halogen bulb. An integrated LED driver regulates voltage fluctuation and guarantees steady light output.
Power consumption 12V - 2,5W, 24V - 3W. The lifetime of the LEDs is more than 50.000h.

The lights are made of aluminum with acrylic lens/cover.
The lights are surface mounted and need minimum space. Easy fixing with screws and clips.

MAST LED

6900 SERIES

CABIN
DENMARK

LED mast light for larger yachts.

The powerfull LEDs illuminate with a minimum of power consumption.
The lights are made of turned aluminum.
The surface is anodized or white lacquered.

Power consumption: 3,6W
Colour temperature: 4500k, CRI >80
On request: 3000k
Lightcone: 16°
On request: 25°, 40°
Lifetime of LED >40.000h
Internal driver for 12V-24V DC.

Dimensions: Ø95 x 40mm
Fixing: M5 screws AISI 316
1500mm cable, other length on request
IP 67

Mast bracket 6900BR to be ordered separately.

BOOM LED

6000 SERIES

CABIN
DENMARK

This series of lights is designed to give cockpit light from the boom.

24 LEDs give the same warm white light as a 20W halogen bulb. An integrated LED driver regulates voltage fluctuation and guaranties steady light output.

Power consumption 12V - 2,5W, 24V - 3W.
The lifetime of the LEDs is more than 50.000h.

The lights are made of aluminum. The surface is anodized or white lacquered.

The lights are surface mounted and fit into the gap in smaller booms.

Dimension 300 x 13 x 8mm.

Fixing: M4 screws AISI 316 or rivets
6000mm cable, other length on request
IP 65
